

MITUL NAVAPARA

SENIOR FULL STACK DEVELOPER (.NET & ANGULAR) | 8 YEARS

Surat, Gujarat, India | dev.mituln.patel@gmail.com | +91 9586031515

SUMMARY

Senior Full Stack Developer (.NET & Angular) with 8 years of experience building scalable enterprise and SaaS applications. Expertise in Angular (v7-latest), TypeScript, RxJS, NgRx, ASP.NET Core, RESTful APIs, PostgreSQL, and MySQL. Strong background in Clean Architecture, SOLID principles, RBAC, workflow automation, performance optimization, and cloud-ready application design. Experienced across Healthcare, Insurance Verification, HRMS, E-Commerce, Education, and Community Management domains. Proven leader in solution architecture, code quality, Agile delivery, and mentoring development teams.

TECHNICAL SKILLS

Frontend: Angular (v7+ to Latest), TypeScript, JavaScript, HTML5, CSS3, SCSS
UI Frameworks: Angular Bootstrap, Material, PrimeNG, Syncfusion
Backend: .NET Core, C#, RESTful Web APIs, Entity Framework, LINQ, Dapper
Databases: MySQL, PostgreSQL
State Management: NgRx, RxJS
Tools & Platforms: Git, Swagger, Postman, Visual Studio, VS Code
Cloud & DevOps: Azure DevOps (Repos, Boards, CI/CD Pipelines)
AI Tools: GitHub Copilot
Practices & Concepts: OOP, MVC, Clean Architecture, SOLID Principles, Agile Methodology, CI/CD, Unit Testing, Performance Optimization

DOMAIN EXPERTISE

Healthcare
Insurance Verification
HR & Recruitment Management
Enterprise SaaS Platforms
Project Management Systems
Education Management
Community & Society Management
E-Commerce Solutions

PROFESSIONAL EXPERIENCE

- Programmers.io Pvt. Ltd.

Senior Software Engineer | Jan 2025 - Present

 - Led development of enterprise recruitment, insurance verification, healthcare, and e-commerce platforms using Angular and .NET Core.
 - Architected scalable APIs, workflow automation, and role-based access control (RBAC) solutions to improve operational efficiency and system security.
 - Drove application modernization initiatives, including Angular upgrades and performance optimizations, while mentoring developers and enforcing coding standards.
- Project Tree

Tech Lead / Senior Full Stack Developer | Oct 2021 – Dec 2024

 - Led frontend architecture and technical direction for enterprise project management and operational management platforms.
 - Designed and implemented scalable RBAC frameworks, dashboards, and workflow-driven modules supporting complex business processes and multiple user roles.
 - Established development standards, reusable component architecture, and mentoring practices that improved team productivity and code quality.

Keypress It Services

Senior Full Stack Developer | Jan 2020 – Sep 2021

- Developed secure healthcare and gaming platforms using Angular and .NET Core, delivering scalable and user-focused solutions.
- Integrated payment gateways, reporting systems, and role-based access controls to enhance platform functionality and security.
- Optimized application performance and collaborated with cross-functional teams to ensure successful project delivery.

Prosol Techline

Junior Full Stack Developer | Sep 2018 – Dec 2019

- Contributed to the development of education and community management platforms using Angular and .NET technologies.
- Built dashboards, analytics, real-time tracking, and communication modules to improve user engagement and operational efficiency.
- Developed strong full-stack development expertise while delivering scalable features across web and mobile applications.

PROJECTS

IMS – Interview Management System

Enterprise recruitment management platform

- Developed Angular modules using Angular Material, PrimeNG and Reactive Forms.
- Designed RESTful APIs using ASP.NET Core and PostgreSQL.
- Implemented role-based dashboards and workflow-driven recruitment processes.
- Developed interview scheduling, candidate tracking, feedback and approval workflows.
- Optimized database queries and API performance.
- Conducted code reviews and mentored junior developers.
- Participated in sprint planning, estimations and production support.

OSI – Insurance Benefit Verification

Insurance policy eligibility and benefits verification system

- Developed Angular workflow modules and reusable UI components.
- Built secure .NET Core APIs and validation frameworks.
- Implemented authorization, business rules and approval workflows.
- Collaborated with stakeholders to deliver insurance-specific solutions.
- Improved maintainability through modular architecture.

Healthcare E-Commerce Platform

Healthcare product ordering and invoicing platform

- Upgraded application from Angular 8 to Angular 19.
- Developed reusable components and optimized application performance.
- Integrated backend APIs and improved user experience.

Industrial E-Commerce Platform

Industrial catalog and order management solution

- Designed scalable APIs for products, customers and orders.
- Implemented secure backend architecture and data processing.
- Enhanced maintainability and performance.

BAPS – Application Lifecycle Management

Project management platform inspired by Jira, Trello, etc.

- Led Angular architecture and frontend design decisions.
- Developed task management, sprint planning and reporting modules.
- Mentored developers and conducted technical reviews.
- Established coding standards and reusable component architecture.
- Participated in requirement analysis and solution design.

BAPS – Akshardham Site Seva

Operational management system with 14+ user roles

- Implemented RBAC and permission-driven workflows.
- Developed dashboards, volunteer management and reporting modules.
- Optimized performance and user experience.
- Collaborated with stakeholders for feature delivery.

Satsport 247

Gaming and investment platform

- Developed secure Angular modules.
- Integrated PayPal and third-party payment gateways.
- Implemented live match streaming functionality.
- Optimized UI responsiveness and performance.

Hospital EMR – Client & Admin Panel

Healthcare management solution

- Implemented RBAC for doctors, admins and staff.
- Developed patient, doctor and billing management modules.
- Built secure APIs and reporting workflows.
- Supported multi-hospital data management.

My Child Edu – Admin

School management platform

- Developed dashboards, reports and analytics modules.
- Implemented growth visualization features.

My Child Edu – Mobile App

Parent-focused application

- Implemented real-time bus tracking.
- Built notifications and activity updates.

My Society Campus – Admin

Society management platform

- Developed maintenance and expense management modules.
- Implemented admin workflows and controls.

My Society Campus – Digital Home

Community platform

- Managed visitor, property, vehicle and staff modules.
- Developed member communication features.

EDUCATION

Bachelor of Computer Applications (BCA)

2018

Veer Narmad South Gujarat University (VNSGU)

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Gujarati.
- **Certifications:** Certificate of Appreciation – Programmers.io (2025)
- **Awards/Activities:** Employee of the Year – Project Tree (2023)
